## **AGENDA REPORT**

AGENDA DATE 09/11/01

AGENDA ITEM 4

WORK SESSION ITEM           

**TO:** Mayor and City Council

**FROM:** Director of Public Works

**SUBJECT:** Clawiter Road Corridor Improvements: Approval of Plans and Specifications and Call for Bids

### **RECOMMENDATION:**

It is recommended that the City Council approve the attached resolution that approves the plans and specifications for the Clawiter Road Corridor Improvements and calls for bids to be received on October 9, 2001.

### **DISCUSSION OR BACKGROUND:**

The project will install three new traffic signals along Clawiter Road at the intersections of National Avenue, American Avenue, and West Street, and interconnect them with the existing traffic signals located between West Winton Avenue and Enterprise Avenue to improve traffic flow through the Clawiter Corridor. Sidewalks are being provided along most of Clawiter Road between West Winton Avenue and Diablo Avenue where none currently exist (see Exhibit A). Construction of these sidewalks will improve pedestrian access, safety, and circulation.

The project is categorically exempt under the "Minor Alteration of Existing Facilities" section of the California Environmental Quality Act Guidelines. Additionally, Caltrans concurs that the project is categorically excluded from the National Environmental Policy Act.

The federal Disadvantaged Business Enterprise (DBE) program applies because the project is primarily funded with federal funds. Under the federal program, there is no separate category for Women Business Enterprises (WBE) and the single goal can be met with any combination of DBEs or WBEs. The established goal for this project is 10 percent, which is based on staff's evaluation of available subcontracting opportunities for this project and an analysis as to which portion of the subcontracting would be reasonable to set aside for DBE participation.

### **PROJECT COST:**

The estimated costs for the project are as follows:

Design and Administration	\$181,000
Construction Contract	955,000
Construction Inspection & Survey	75,000
<b>TOTAL</b>	<b>\$ 1,211,000</b>

**FUNDING:**

The 2001-02 Capital Improvement Program includes \$1,211,000 in the Street System Improvements Fund for this project. The City will be reimbursed 100 percent of the project costs from State Congestion Mitigation & Air Quality (CMAQ) and Federal Surface Transportation Program (STP) funds.

**SCHEDULE:**

The following schedule has been developed for this project:

Advertise for Bids	September 11, 2001
Receive Bids	October 9, 2001
Award Construction Contract	November 13, 2001
Begin Construction	February 19, 2002
End Construction	July 26, 2002

The delay between the project award and the construction start is because of anticipated waiting period between ordering and delivery of the traffic signal equipment.
